PROFESSIONAL SUMMARY

Results-driven professional with over 5 years of experience in developing client-server web applications using technologies such as ASP.NET MVC, ASP.NET API, and Angular. Proven expertise in transforming technology stacks, enhancing user experiences, and contributing to projects in diverse domains, including insurance comparison and tracking management.

TECHNICAL SKILLS

Web technologies

Angular, Web API, Dot Net MVC,
CSS3, HTML5, Bootstrap

Programming languages

C#, JavaScript, LINQ, TypeScript

Database

SQL Server

WORK EXPERIENCE

03/2022 - Current

Senior Software Developer, Nagarro Software, Gurugram

Project Name:- TTX (Train Pooling)

Description:- TTX is a railcar and related freight train management tool to the North American rail industry. The project involved management of trains. Work involved upgrading the technology stack of the client project.

Technology Stack:- Angular 12, Web API, Typescript, SQL Server, Dot Net MVC

Responsibilities:- • Migrate the existing application's technology stack from .NET MVC to Angular, enhancing application performance.

- Handled the development issue that arose after the upgrade
- Streamlined codebase by eliminating deprecated packages and integrating new ones
- Implemented essential design changes after the upgrade for optimal user experience

04/2021 - 01/2022

Software Developer, Eurofins, Bengaluru

Project Name:- BPT(Product Testing Web Portal)

Description:- Biopharma Product Testing is a Web ERP portal for client employees that facilitates product testing. BPT stores the sample information when it enters the Labs till its invoicing is generated. BPT helps in testing different products like food, pharma products, and the Environment.

Technology Stack:- ASP.NET Web API, TypeScript, Angular 10, SQL Server

Responsibilities:- • Primarily responsible for designing new functionalities and bug fixes based on client needs

- Contributed and implemented new ideas(Ideathon challenge) to enhance the product

11/2019 - 03/2021

Software Developer, Admiral Technologies, Gurugram

Project Name:- Lelnyx (Insurance comparison Software)

Description:- The project involved working on a web application that compared insurance prices offered by the partners. The application provided a price comparison for 6 different insurance products. Users will be asked multiple questions and after submitting those, the application will be displayed with multiple quotes and partner page redirections.

Technology Stack:- ASP.NET Web API, TypeScript, Angular 8, SQL Server, C#, HTML5

- Responsibilities:-** • Designed and developed reusable Angular packages for cross-product utilization
- Collaborated on the development of two products alongside the team

02/2018 - 09/2019

Software Developer, Radicle Software, Gurugram, India

Project name:- Bacardi (ERP portal for beer company.)

Description:- The project involved working on a web application that was used to keep track of all orders for the company and its clients. The application provided detailed order information that was helpful for both the clients and their suppliers. It acted as a bridge between the client and supplier, ensuring that all requirements were met. Also, there is a supplier bidding which used to take bids by different suppliers for a request. Once the bidding process is completed, the Awarded supplier sends the requested order which is further tracked and managed by different levels of employees having different authorities in the organization.

Technology Stack:- ASP.NET Web MVC, JavaScript, AJAX, SQL Server, C#

Responsibilities:- Primarily responsible for implementing a new module called supplier bidding which allowed suppliers to bid for orders and automatically placed an order with the highest bidder

EDUCATION

10th(2012) & 12th (2014)

Sacred Heart Convent School, CBSE Board, Yamunanagar, Haryana

Bachelor of Technology (Computer Science)

JMIT, Radaur (KURUKSHETRA UNIVERSITY), Radaur, Haryana

HONORS AND AWARDS

- Cheerboard selection for outstanding performance at Nagarro
- Awarded with first prize in "Talaash"(District level)
